PROMOTER & AFFILIATE MARKETING SYSTEM OPERATING MANUAL

An exact system guide detailing referral coupon links, 7-day cookie attribution, real-time commission tracking, and bank/UPI payout management.

KEY AFFILIATE FEATURES ACTIVE ON WEBSITE

- Dedicated Promoter Portal & Live Analytics Dashboard (/promoter/dashboard)
- Unique Referral Links with 7-Day Automatic Cookie Coupon Activation
- Instant Customer Discount at Checkout & Tracked Commission Credit
- Flexible Payout Options: Direct UPI (GPay/PhonePe) or Bank Account Transfer
- Real-time Tracking of Referred Sales, Pending Commissions & Paid History

1. How the Affiliate System Works

The Ratnamayuri Promoter System connects your promotional campaigns directly with our e-commerce platform database. When you register as an official brand promoter, your account is activated with custom referral coupons linked directly to your Promoter ID.

STEP-BY-STEP REFERRAL & COMMISSION FLOW

Step 1: Referral Link Creation

Your dashboard provides a 1-click link format: `http://localhost:3000/?coupon=YOURCODE` (or appending ?coupon=YOURCODE to any product URL).

Step 2: 7-Day Cookie Activation

When a buyer opens your link, our system automatically sets a 7-day referral cookie ("affiliate_coupon") in their browser and displays a confirmation notification.

Step 3: Instant Checkout Discount

When the buyer completes their order, your referral coupon is automatically applied at checkout, granting them an instant price discount.

Step 4: Commission Record Creation

As soon as the payment is confirmed, a Commission record is generated in the database containing your Promoter ID, Order ID, and earned Commission Amount.

COUPON & COMMISSION ARCHITECTURE

- **Customer Incentive:** Customers receive an exclusive discount on their total order amount when using your assigned referral coupon code.
- **Promoter Earnings:** Every completed order using your coupon credits your promoter account with a fixed or percentage commission amount configured in the system database.
- **Dual Attribution:** If a customer types your coupon code manually at checkout without clicking a link, commission is still 100% credited to your account!

2. Promoter Dashboard Analytics

Log in to your Affiliate Portal at <http://localhost:3000/promoter/dashboard> to monitor real-time sales and commissions. Your portal includes 4 live metric cards:

TOTAL SALES REFERRED

Gross monetary sum of all paid orders completed using your promoter coupons.

REFERRED ORDERS

Total count of successful customer purchases generated by your campaigns.

PENDING COMMISSIONS

Commissions logged from recent orders awaiting admin payout approval.

PAID COMMISSIONS

Total payout money successfully disbursed to your bank or UPI account.

3. Payout Settings & Withdrawal Setup

Promoters can update their preferred payout credentials directly inside the dashboard form. Choose between two supported payout methods:

OPTION A: UPI INSTANT TRANSFER

Enter your UPI ID (e.g. name@okaxis, mobile@ybl, name@paytm). Payouts are transferred directly to your UPI handle.

OPTION B: DIRECT BANK TRANSFER (NEFT / IMPS)

Enter your Bank Name, Account Number, IFSC Code, and Account Holder Name. Commissions are disbursed straight to your bank account.

4. High-Converting Promotion Strategies

Strategy #1: Direct Product Deep Links

Instead of sending buyers to the generic home page, link directly to specific Kanchipuram sarees or Temple jewellery items by attaching ?coupon=CODE to the product page URL.

Strategy #2: Social Media & WhatsApp Broadcasts

Share short unboxing videos, festival drape ideas, or bridal jewellery highlights on WhatsApp groups, Instagram stories, and YouTube descriptions with your referral link.

Strategy #3: Emphasize Quality & Trust Seals

Highlight that Ratnamayuri products come with 22K Gold Hallmark certification, 100% Genuine Silk seals, sanitized factory packaging, and Cash on Delivery options.
